

## ELECTRICAL INSTALLATION & REFURBISHMENT

We offer design, installation and certification of all types of electrical services within commercial and industrial premises.

All our work complies fully with BS7671 and we regularly undertake electrical installation and electrical refurbishment projects within the £500 to £250,000 value range.

We are NICEIC registered contractors and our focus is on the quality of the installation, working within agreed timeframes and very tight budgetary control of projects.

We work in many market sectors including Retail, Healthcare, Industrial, Commercial Property, Restaurant and Hotel groups, Banks and Insurance Companies.

Projects typically include;

- Electrical distribution boards
- Sockets and other power outlets
- Small power installation and upgrade
- Mains power upgrades
- Lighting and lighting control
- LED lighting
- Emergency lighting
- Machinery relocation
- Door entry systems
- Data cabling
- External Lighting
